

Zena

Zena is a smart autonomous mobile robot that securely delivers guest items, food and amenities in hospitality environments.

DIMENSIONS AND TURNING RADIUS

Zena provides the largest capacity in the hospitality market. Each locking compartment is accessed using a pin-code supplied to the guest automatically on their mobile phone. By removing the center divider, the cabinet can be reconfigured to deliver even larger items such as pillows, bulk linens, and comforters.

INTUITIVE FOR GUEST

Simple operation

YOUR BRAND

Can be branded for you

24/7 SUPPORT

We support you day and night

SECURE
